EDUCATION

The University of Hong Kong

Sep 2025 - Dec 2026

Master of Statistics, Financial Statistics Stream

Hong Kong

- **CGPA** — 3.68/4.30, **Awards** — Belt and Road Scholarship in Statistics and Data Science (Full Tuition, 2025-2026)
- **Coursework** — Statistical Inference, Time Series Forecasting, Data Mining Techniques, Portfolio Analytics

The University of Hong Kong

Sep 2021 - May 2025

Bachelor of Economics and Finance, 2nd Major in Computer Science

Hong Kong

- **CGPA** — 3.65/4.30 (First Class Honours), **Awards** — Dean's Honours List (2021-2025), HKU Entrance Scholarship (Full Tuition, 2021-2025), Chan Tat Chee Memorial Education Abroad Scholarship (2023-2024)
- **Coursework** — Software Engineering, Data Structures & Algorithms, Operating Systems & Networks, Relational Databases, Object-Oriented & Functional Programming, Mathematical Finance & Econometrics, Statistical Learning

PROFESSIONAL EXPERIENCE

Software Engineer Intern ([more details](#))

Dec 2025 - Present

ActusRayPartners, LTD

Hong Kong

- Refactored portfolio management systems and factor beta calculation with **VBA** and **Bloomberg Query Language**.
- Designed a monitoring system for **ETL pipelines** in the APAC and EU regions with pseudo version-control features, utilizing **Microsoft Power Fx** and **Outlook**, reducing manual effort by 5+ hours weekly.

Deep Learning Research Intern ([more details](#))

Jul 2025 - Aug 2025

Shanghai Jiao Tong University

Shanghai

- Implemented training scripts for **CNNs** with 19M parameters, achieving 93% accuracy on CIFAR-10.
- Organized deep learning dependencies such as **PyTorch** and **Lightning** with **Docker** and **Poetry**.

Data Science Intern ([more details](#))

Jul 2024 - Dec 2024

Oxbridge Economics, LLC

Hong Kong

- Designed and implemented a stratified sampling algorithm with **scikit-learn** and **Pandas** with a 56 GB geospatial data warehouse and **Landsat satellite data**, increasing R-squared by 59%.
- Conducted **feature selection** and trained robust **tree-based models** (XGBoost) with regularization, cross-validation, and Bayesian hyperparameter tuning to estimate geospatial variability of soil carbon.

DevOps Engineer (RA) ([more details](#))

Mar 2024 - Apr 2024

Vancouver School of Economics

Vancouver

- Reduced **software deployment** time by 50% via recursive synchronization of dependencies.
- Automated **CI/CD** with **Bash** and **GitLab CI**, mitigating the risk of error in a project of 30+ developers.

Data Engineer (RA) ([more details](#))

Jun 2023 - Sep 2023

HKU Business School

Hong Kong

- Developed an **ETL pipeline** with **Python** and **AWS RDS MySQL** for a 35 GB **XML Morningstar** dataset.
- Reduced end-to-end data ingestion time from ~10 hours to under 1 hour by optimizing pipeline architecture, achieving sustained throughput of 104 Mbps (13x speedup).

RELEVANT PROJECTS

Citadel Trading Challenge - 1st Place ([more details](#))

Oct 2024

- Brainstormed and solved a collaborative mathematical trading simulation game, achieving 1st place amongst 30 select participants across 6 teams from the University of Hong Kong.

Tower Research Capital - Supervised Alpha Research Project ([more details](#))

Dec 2024

- Set up infrastructure and dependencies on a GPU farm provided by the HKU HPC Laboratory to run BERT-Twitter embeddings and sentiment analysis on 3.4+ million Glassdoor employer ratings.

VOLUNTEERING

Student Helper for Bridges International

Aug 2021 - Present

- Coordinated and led a welcoming initiative for 200+ international students at the University of Hong Kong.
- Collaborated alongside volunteers to facilitate community outreach with an NGO for South Asian children.

Teaching Assistant for COMP1117 & COMP2113

Sep 2023 - May 2025

- Responded to Q&A forums on Python control statements, functions, data structures, recursions, and file I/O.
- Led tutorials on Linux and Bash, C and C++ programming, Git version control, and compilation with Makefiles.

TECHNICAL SKILLS

- **Programming Languages** — Python, R, C, C++, Java, Haskell, Bash, SQL, VBA
- **Statistical Computing** — Pandas, NumPy, scikit-learn, PyTorch, NLTK, ElementTree
- **Development** — AWS (EC2, S3, RDS, CloudFront, Route 53), Docker, Git, CI/CD, Agile Development
